# Home Design Gallery Show

On February 27th and March 4th the design team facilitated two Home Design Gallery Show exhibitions of the preliminary home designs. These exhibitions displayed the results of the collaborative design process with CRA & Outreach Area neighborhood residents, community leaders, and local design architects. The events were held in the Houston Housing Authority's Neighborhood Resource Center at 815 Crosby from 6:00 PM - 8:30 PM and at 601 Sawyer Street from 10:00 AM - 2:00 PM respectively.

Each Gallery Show was an informal and festive event, designed for participants from all CRA neighborhoods to explore, review, comment and vote on the displayed home designs. This document is a summary of these events and the results of the voting. Interviews, video and the design boards are also available on the project website ([dr2homedesign.com](http://dr2homedesign.com)).

# Voting

The ballots allowed for a vote of “Love it,” “Like it,” and “Dislike it” for each home design on display. Each design was assigned a letter and a neighborhood (indicated by the color of square) that corresponded with the same letter on the ballot. Participants were asked to vote on all home designs, regardless of which neighborhood they currently live in or which neighborhood the home was designed for. Additional comments were also encouraged.

To track the general consensus throughout each evening, a “tally board” was on display near the entry/exit of the exhibition. Votes of “Love it” and “Like it” were indicated by placing a red or yellow sticker, respectively.
